Really Important information for all General Practice teams – Please share this with everyone in your team

We have just been notified by Propharma that all previous unfilled orders for MMR (even from yesterday) have been discarded.

Please could you estimate your vaccine requirements for the next week. Order this via the normal Propharma process before midday today.

These orders will be distributed either Wednesday afternoon or Thursday.

We share your frustrations regarding the lack of vaccines and the inadequate communications from suppliers.

Again we appreciate all your hard work in responding to this outbreak and apologise for the delays and confusion.

Kind regards,

Drs Phil Schroeder and Kim Burgess
Canterbury Primary Response Group
