1 July 2020

Dear PHO Chief Executive Officers

## **COVID-19 Assessments in General Practice: Updated Framework**

On 23 April 2020 I advised all PHO CEOs of the amendments of funded [COVID-19 assessment](#) consultations. Following the release of the Ministry of Health's revised Case Definition on 24 June 2020, the assessment framework has been updated in conjunction with PHO Clinical Leads and CEOs. I am pleased to advise this has been approved by National General Managers' Planning and Funding.

The updated service expectations for this three-tier assessment process are set out in the appendix to this letter. This replaces the framework that has been in place until now.

If you have any questions, please contact your local DHB portfolio manager.

Yours sincerely

Dr Nick Chamberlain

**Chief Executive, Northland District Health Board**

**Lead District Health Board Chief Executive for Primary Care and Public Health**
